Craft Inspiration

Embroider in style with the Innov-is V3SE. This embroidery machine from Brother has integrated advanced features and a large embroidery area, making it easy to add beautiful designs and lettering to your creations quickly and simply.

Packed with pioneering new features, creating elegant projects has never been easier:
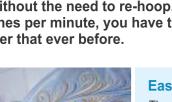

Large LCD touch screen

The large, bright, clear, 7 inch LCD touch screen display with 260,000 colours offers user-friendly controls to select designs, edit embroidery patterns and adjust stitches. These supportive features makes creating projects easy by previewing your designs in the full colour screen where your can also, with the touch of a button, add lettering, rotate, enlarge, reduce and combine easily and quickly.

On-screen editing

Also packed with a powerful on-screen editing system, this machine includes layout tools where you can drag and drop patterns into various positions, enlarge, reduce, rotate and create mirror images, and also customise designs to turn your own personal ideas into reality.

Large embroidery freedom

The Innov-is V3SE's large 300 x 200 mm embroidery area allows you to create large, complex designs without the need to re-hoop. Combined with a high speed of up to 1,050 stitches per minute, you have the freedom to produce beautiful embroidery, faster that ever before.

A wide selection of built-in fonts makes it easy for you to personalise and decorate your projects. Embellish items with the beautiful new floral font or add monograms for that personal touch. There are 17 fonts to choose from, including two Cyrillic and three Japanese.

Easy threading

The advanced electronic automatic needle threading system threads the needle at the touch of a button.

Auto tension

The Innov-is V3SE will automatically adjust thread tension to your required setting.

Thread sensors

The helpful upper and lower thread sensors inform you when a thread is broken or is about to run out.

Automatic thread wiper

The automatic thread wiper cuts jumps stitches, saving you time and effort.

Slide-in frame mechanism

With the slide-in frame mechanism, you can quickly attach and remove embroidery frames, whilst the automatic thread trimmer instantly cuts both top and bottom threads,

Over 200 new exquisite embroidery designs

Enjoy creating a range of unique and beautiful new embroidery projects around your home with designs such as the Classic Japanese, Vintage, Trendy, Zundt and special technique designs.

Designs can be edited, combines, rotated, reduced and enlarged from the touch screen. Simple drag-and-drop embroidery pattern positioning, with full colour previews, gives you full control to create sophisticated designs quickly and simply.

Import patterns instantaneously

Instantly import designs via the built-in USB port. Simply insert a USB memory stick, or connect the Innov-is V3 machine directly to your PC, to send your embroidery designs to the machine

Built-in thread charts

The Innov-is V3SE includes thread charts from leading thread manufacturers. Without any effort, you can choose your preferred brand from the touch screen and the matching colour will be displayed.
